### **Congratulations on your Key Stage 2 Education Outcomes for 2022**

Dear Matthew and Margaret,

It is with pleasure that we write to congratulate you and your entire school community on the fantastic overall KS2 RWM expected standard educational outcomes achieved by your pupils, which is above the London and England averages and is a remarkable achievement.

No one can underestimate the impact of the global pandemic and how this disrupted pupils' learning, growth and development over the past 2 years. It is because of the very carefully planned curriculum and support programmes delivered by your teachers and support staff, supported also by carefully considered and structured nurture and wellbeing programmes that have enabled your pupils to accelerate in their day-to-day progress and to attain so well.

We are thankful of the hard work and efforts of your entire staff, governors and of course, the pupils and their parents, in pulling together to achieve the best results possible, enabling them to transition securely and with great confidence into the next stage of their education journey.

What a remarkable achievement for your school, and demonstration that our Newham schools have pulled together once again to achieve higher than London and England averages across early years and primary education outcomes indicators. Your school has contributed significantly to this success, and we thank you all once again.

Very best wishes and congratulations to you all.

Anita Stewart  
**Director of Education, Inclusion and Achievement**

Tim Aldridge  
**Corporate Director Children and Young People**
